COVID-19 SYMPTOMS

• Dry Cough
• Sore Throat
• Fever
• Difficulty Breathing
• Tiredness
Field Procedures for Agriculture Workers

There is currently no vaccine to prevent the novel coronavirus disease (COVID-19). You can protect yourself and help prevent spreading the virus to others, if you:

- Maintain a social distance of at least six feet between you and your fellow coworkers.
- Wash hands often with soap, for at least 20 seconds.
- Do not shake hands with coworkers.
- If anyone is experiencing symptoms of illness, they should immediately isolate themselves and contact the nearest healthcare facility.
